## Statement of NIHR On the Occasion of Bahraini Women's Day

Manama – 1 December 2025

On the occasion of Bahraini Women's Day, the Kingdom of Bahrain celebrates this national event annually on the first of December, in appreciation and recognition of the pioneering role played by Bahraini women in supporting the nation's progress. Bahraini women are essential partners in sustainable development, influential contributors to pathways of change, and proactive participants across various fields of national service.

This year's celebration adopts the slogan: "**Bahraini Women... Excellence... Creativity... Innovation**" reflecting its profound significance and the many stages of development and leadership achieved by women throughout the course of national progress. The slogan embodies the distinguished presence of Bahraini women in scientific, economic, social, and cultural fields, as well as their ability to transform aspirations into qualitative achievements that have strengthened the Kingdom of Bahrain's standing at both the regional and international levels.

The National Institution for Human Rights (NIHR) commends the Kingdom of Bahrain for the legislative progress achieved and the steadfast efforts made in protecting and promoting women's rights. This has been made possible through the noble care of His Majesty King Hamad bin Isa Al Khalifa, the King of the country, and through the follow-up and support of the Supreme Council for Women, chaired by Her Royal Highness. Princess Sabeeka Bint Ibrahim Al Khalifa. Wife of His Majesty the King of Bahrain President of the Supreme Council for Women.

On this occasion, the NIHR reaffirms its firm commitment to supporting and empowering Bahraini women and protecting their rights. It calls upon government entities, the private sector, and civil society organizations to continue strengthening the principle of gender equality and integrating women's needs within national policies and plans. When doors of equal opportunity are opened to women and girls, societies flourish, sustainable development accelerates, and innovation is fostered to build a more prosperous and inclusive future for all.
